SharedSolar
Community-Owned Solar Farming

Now you can be a part of something bigger. Much Bigger.

You can lease kWh blocks from Provo Power's solar farm located in Spanish Fork! This is a great alternative and an affordable way to utilize renewable power without installing solar panels on your roof, all while getting the benefits of solar power.

To find out more, please go to:

https://www.renewchoice.com/shared_solar/

Participation is an added cost to your utility bill, however, there is potential to reduce your peak energy consumption based on blocks purchased. Please go to the website to get more information and to register.

The following information is provided for utility customer facing economic challenges.

- HEAT - The H.E.A.T. program is Utah's version of the federal LIHEAP program (**Low Income Home Energy Assistance Program**). It is funded 100% by the Federal Government through the U.S. Department of Health and Human Services. It is managed locally by Community Action at 801-373-8200.
- HELP - The HELP program is a low income program funded by the citizens of Provo and locally managed by Community Action at 801-373-8200.
- Payment Arrangements - The City of Provo offers payment arrangements on past-due balances. The arrangement requires an evaluation of payment history and valid identification.

Account information will not be provided to any customer without proper identification.

A PROVO CITY PUBLICATION

Serving All of Provo: A Message from Your Mayor

On January 5th, I began my service as Provo's 46th Mayor. I am excited and humbled to be able to represent the city where I raised my family, served on the school board and the legislature, and where we have such an incredible community.

I want to acknowledge the service of Mayor Kaufusi and her staff and express my gratitude for their service to our city. Stepping into public service requires deep love for our community and many sacrifices, and I would like to thank Mayor Kaufusi and her family for their commitment.

I recognize that the recent election was one of the closest in our city's history. I want to let you know—whether you voted for me, for someone else, or didn't vote at all—I am ready to serve you and all of Provo over the next 4 years.

With any newly elected official, there is so much to be taken on. I want to outline the five pillars that will be the focus of my administration so I can be accountable to residents as I work toward our shared goals.

1. Strengthening Communities: Every neighborhood and every resident matters. Provoans should feel connected to our city government and to each other.

2. Embracing Innovation and Transparency: Provo should be a statewide and national leader in smart, efficient, transparent, and forward-thinking government.

3. Sustainable Governance: Our decisions should prioritize long-term outcomes over short-term political wins, protecting the financial, administrative, and environmental sustainability of Provo.

4. Increasing Housing Options: Provo must remain attainable for people at all stages of life. Working with the city council, we will prioritize creative and effective housing solutions that pave the path to home ownership.

5. Supporting Local Businesses: Provo residents deserve a community that is economically vibrant and fiscally strong. In tandem with local partners, I am committed to supporting existing local businesses across the city while reducing barriers to entry for newcomers and entrepreneurs.

I love this city and believe that our brightest days are ahead. Not because of any government program or initiative, but because of the incredible residents who do the quiet work every day of making our city kinder, more vibrant, and more connected.

Marsha Judkins

Urban Farming

Grow more and save with Provo City's Urban Farming Water Credit Program. Residents who dedicate a significant portion of their property to growing fruits, vegetables, or herbs using efficient irrigation may qualify for a $120 water bill credit each year. This program supports community and neighborhood gardening while encouraging smart water use. Eligible properties must meet land use and water efficiency requirements and apply annually.

Learn more about the program details and see if you qualify at **provo.gov/water-efficiency**

DID YOU KNOW THAT 37% OF UTAH COUNTY'S AIR POLLUTION COMES FROM BUILDINGS?

Backflow Protection for Fire Suppression Systems

Provo City's Water Resources Division and Fire Marshal's Office are working together to protect our drinking water while supporting safe, code-compliant fire suppression systems in our community.

Utah state code requires testable backflow prevention assemblies on all fire suppression systems that are connected to the public drinking water system and/or have a Fire Department Connection. These assemblies must be tested annually. To keep our community's drinking water safe — and as required by the State — Provo City is responsible for enforcing these backflow protections.

Even if your fire suppression system met the code when it was originally installed, there are no grandfathering provisions when it comes to protecting drinking water quality. That means some older systems will need to be retrofitted with approved backflow prevention.

We understand that installing or modifying backflow protection can be a significant expense, and many businesses are being contacted by companies offering this work. While backflow protection is required, we encourage property owners to do their due diligence — including requesting bids from multiple licensed contractors — to ensure fair and reasonable pricing.

If you have questions about what is required at your property, or if you need help understanding your options or additional time to complete the work, please reach out to us. The Cross Connection Control Program and the Fire Marshal's Office are happy to review your system, confirm requirements, and work with you on reasonable timelines.

Our goal is simple: prevent contamination of the public drinking water system while ensuring buildings remain safely protected by approved fire suppression systems. We appreciate your efforts in protecting our drinking water and are here to help.

For more information, visit provo.gov/crossconnection or call (801) 852-6788.

Shade Trees for Energy & Water Conservation

Who Qualifies?

To qualify for a free tree, you must be a Provo residential electric customer with an active account who hasn't received a free NatureShade tree in the past two years.

How to Sign Up?

Set an alarm for March 24 at 8 am. The application will not be available before this day.
Go to RenewChoice.com to apply.
Spots fill up fast so follow Provo Power on Facebook or Instagram. We will be posting reminders for you!

What type of tree will I get?

All trees are shade trees that have been selected by our city forester to work well in Provo. These trees will be saplings (around 7 ft tall) and will fit in your normal vehicle. You will find the tree species available at RenewChoice.com when you register. Please keep in mind, tree varieties are given away on a first come, first serve basis.

When will I get my tree?

Once you are approved, you will receive an email to schedule a time to pick up your tree.

Provo City Recognized as a Visionary Digital Inclusion Trailblazer!

We are proud to announce that Provo City has been named a 2025 Visionary Digital Inclusion Trailblazer by the National Digital Inclusion Alliance for the sixth year in a row. This honor highlights our ongoing work to ensure all residents have access to affordable internet, devices, and the digital skills needed to thrive in today's connected world.

From donated and refurbished computers, digital skills classes, and public internet access to tech support at community hubs, our digital inclusion efforts help residents stay connected, pursue opportunities, and access essential services.

"*We are honored to be named a Visionary Trailblazer again,*" shared Joshua Ihrig, Provo City's Information Systems Division Director. "*When more residents can connect to jobs, education, and services online, our community grows stronger.*"

Mayor Marsha Judkins added, "*Provo's strength comes from our commitment to making this city a place where everyone can participate, contribute, and thrive.*"

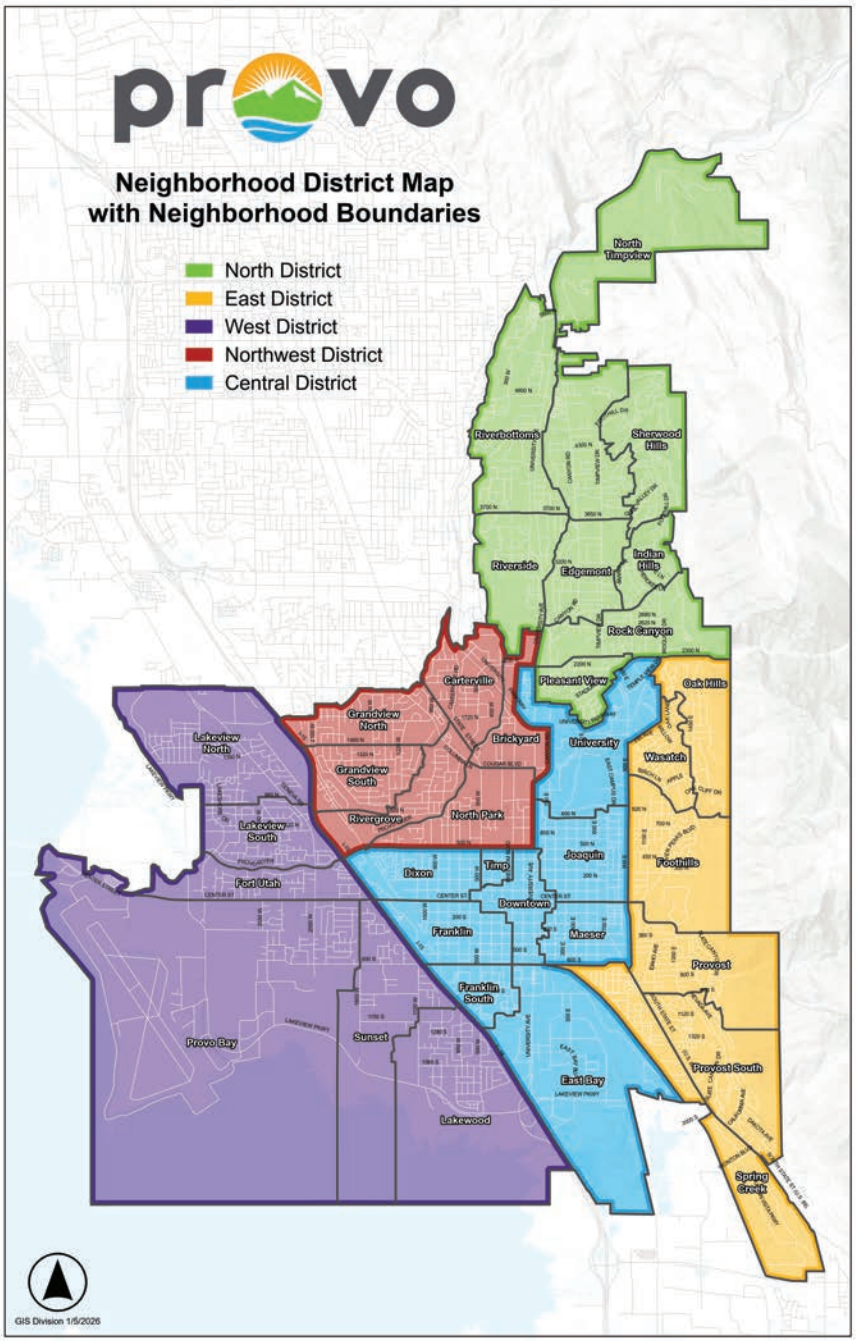
Serve Your Neighborhood

Shape Provo's Future!

Do you love your neighborhood? The Provo City Council is seeking volunteers to serve as **Neighborhood District Executive Board Members** with current openings in these areas: **Riverbottoms, Pleasant View, Fort Utah, Provo Bay, Sunset, Carterville, Brickyard, and East Bay.**



Neighborhood District Executive Board Members play a key role in representing their community's needs and priorities. Board members:

- Attend **four meetings per year** (Wednesdays, 6–7:30 PM)
- Voice neighborhood concerns to the **Neighborhood Board, Planning Commission, and City Council**
- Help coordinate **community clean-up projects**
- Provide input on **traffic studies** and **neighborhood improvement grants**
- One of the first to know about **proposed developments** in their area

Applicants must live or work in the neighborhood they represent. Terms begin immediately following Council approval and last 1–3 years.

Residents interested in participating but whose neighborhood is not currently listed can also apply now for 4-year terms starting January 2027.

To learn more or apply, scan the QR code or visit:
www.provo.gov/282/Neighborhood-District-Program
